Dr. Miles' Nerve Restores Health.

UNOLE EZEKIEL OBEAR, assessor and tax collector, Beverly, Mass., who has passed the 94th life milestone, says: "Dr. Miles' Restorative Nerve has done a great deal of good. I suffered for years from sleeplessness and nervous heart trouble. Would feel weary and used up in the morning, had no ambition and my work seemed a burden. A friend recommended Dr. Miles' Nerve, and I purchased a bottle under the impression that it was a medicine. It was not a medicine, but a restorative. It gave me a good appetite and restored me to energetic health. It is a grand good medicine, and I will gladly write anyone inquiring, full particulars of my satisfactory experience."

## AWFUL DESTRUCTION

For Nine Hours a Fierce Hurricane Rages Throughout Porto Rico.

## MANY TOWNS DESTROYED

Ponce, Alibonito, El Cayey and Bayamon Practically Wiped Out—Many Lives Lost—Government Property to the Value of Hundreds of Thousands of Dollars Swept Away.

San Juan de Porto Rico, Aug. 11.—Meager details of the hurricane which broke over the south coast yesterday and swept northwest are being received. There was no abatement for nine hours, and great damage was done. The wires were down and communication with the interior for a time was impossible. It is now chiefly carried on by couriers.

At San Juan four natives were drowned in the harbor; 80 houses were demolished and hundreds unroofed. The damage to property is estimated at \$500,000. Commissary stores to the value of \$50,000 were destroyed.

A dispatch by cable from Ponce says the town was almost destroyed. Almost all the frame buildings are down, the bridge is swept away, and there is no communication between the port and city proper. Damage to the port is estimated at \$200,000. Two natives are known to have been drowned. The records and property of the customhouse are ruined, and all the vessels are ashore.

At Alibonito very little remains standing except the cathedral and barracks. Four natives perished and three United States soldiers were badly injured. As the town is without food government relief has been dispatched thither.

El Cayey was leveled to the ground, 200 houses being demolished. Two United States soldiers were injured there and many cavalry horses killed. At Catano the entire plant of the Standard Oil company was ruined. The loss on the property is \$200,000.

At Bayamon a majority of the houses were destroyed and the rest was flooded. Two hundred cattle were killed and the railway was seriously damaged. The village of Carolina was literally raised. At Caguas four persons were killed.

A courier just arrived from Humacao, capital of the province of that name, on the eastern coast of the island, reports awful destruction there. The loss to property is estimated at \$500,000, but this is the least item in the disaster. The courier brought an official report from Captain Eben Swift of the Fifth United States cavalry, who says: "Humacao was totally destroyed by the hurricane. Forty-six bodies have been recovered and there are many more in the debris. Eight privates of Troop C were injured, two fatally. Sergeant King of the Eleventh infantry was injured. North, a discharged private, is missing. At the port of Humacao 18 bodies have been recovered. Eight hundred people are starving here."

Three persons were killed at Las Piedras and five at Janco. Couriers from the other districts are anxiously expected at the palace. The steamer Slocum, Captain Thomas, enroute from Mayaguez to San Juan, was caught in the storm, but her passengers and crew were saved through the heroism of Mr. Singla, the first officer.

The coffee crop is ruined and the loss will reach millions. Very great injury has been done also to the orange crop. No definite returns have yet been received from the southern section of the island apart from Ponce. It is certain, however, that the food supplies in the stricken districts have been destroyed, and in those quarters the quantity of government stores on hand is small. Relief wagons were sent out today in various directions. General George W. Davis, the governor general, has cabled

There is no argument so good as an absolute, plain, truthful statement of fact. There is nothing so interesting as fact.

In the true happiness of the everyday life of every-day people are materials for most thrilling novels. There are every day stories of heroism, suffering and the final triumph of good over evil—of happiness finally crowning endeavor. Here is a case in point:

In the county of Escambia in Alabama is the little town of Flomaton and there lives Mrs. Mollie Grimes. She was a good wife and mother but several years ago she found her health slipping away from her. She realized that this meant the inevitable nervousness and irritability that would surely lead her to the affliction of her children and husband, and that as her health declined discord and misery would appear in her home. She was filled with the loving motherly instinct, but two miscarriages in succession almost broke her heart. She had almost lost hope when the clouds rolled away and the light of health and happiness returned.

She tells her story in these words: "I was almost heart-broken to find I could not raise any more children and had to suffer as I did. I had lost two children by miscarriages and I fully expected to lose another when, in August 1897, I learned of and began taking Dr. Pierce's Favorite Prescription and took it until after baby was born in November. With my other children I had suffered everything that flesh could endure but this time I was in perfect health and had a very easy time. I was in labor only a short time. Dr. Pierce's medicine certainly saved my baby's life and maybe my own life as well. I took the 'Favorite Prescription' and also the 'Pleasant Pellets.' The 'Pleasant Pellets' act like a charm."

The 'Pleasant Pellets' act like a charm."

## HAIL STORM

Crops In Minnesota Damaged From 25 to 75 Per Cent.  
Haled, Minn., Aug. 11.—Hail totally destroyed crops in this section yesterday. All windmills facing the west were knocked in and several inches of hail were piled in the streets. The storm started near Kelso, N. D., and cleaned a strip 10 or 15 miles wide in a southeasterly direction, passing through Haled, Hendrum, Perley, High Wind and Shelly on the north and Georgetown on the south. Reports show the damage to crops in the storm's course to be from 25 to 75 per cent.

## YELLOW FEVER

The Epidemic Practically at an End. Quarantine Raised at Newport News. Newport News, Va., Aug. 11.—The yellow fever epidemic is practically at an end. The quarantine established by this city against Hampton and vicinity was raised last night.

The local quarantine against Norfolk will be raised tomorrow evening. The record of the scourge to this date shows a total of 48 cases, of which 11 resulted fatally. Twelve cases were discharged as cured and 20 convalescents remain in the hospital at the soldiers' home. The quarantine against Phoebus and the soldiers' home will be maintained perhaps 10 days longer by Norfolk.

Deputy Sheriff Chadwell Shot. London, Ky., Aug. 11.—It is reported here that Dave Chadwell has been shot from ambush near his home in Clay county. Chadwell is deputy sheriff and is said to belong to the Morris-Griffin faction.

## Sir Wilfrid Repudiates the Recent Fitzpatrick Interview.

Chicago, Aug. 11.—In a personal letter to H. H. Kohlman of the Chicago Times-Herald, Sir Wilfrid Laurier, the Canadian premier, denies the truth of an interview recently given out by F. W. Fitzpatrick of the treasury department, Washington, in which he asserted that Premier Laurier had stated to him he would not accept an invitation to the Chicago autumn festival, believing the somewhat strained relations between the two countries might result in some unpleasant incident during his visit. In his letter Premier Laurier says: "You are at liberty to say that I have paid no attention to an interview published recently in a Washington paper in which a reporter purported to give to the public words not spoken to him by me, but to somebody else. Life is too short for a busy man to take notice of this kind of or any kind of hearsay evidence. If I had any communication to make to the public I would prefer to make it directly and in my own words. It seems to me that I need hardly add that the invitation of the Chicago authorities will receive the most courteous consideration."

## DE MANGE CONTENTED

Satisfied With the Conscientiousness of the Dreyfus Court.

Rennes, Aug. 11.—Maitre De Mange, the principal counsel of Captain Dreyfus, in an interview after yesterday's session, expressed himself as very well contented with the way in which matters are proceeding, and, judging from his manner, one may say that the defenders of the accused have not yet met anything very surprising or alarming in the secret dossier.

Naturally De Mange declined to give any particulars respecting the contents of the dossier, but he declared that he and his colleagues, Mr. Labori were satisfied of the conscientiousness of the members of the court to throw the whole matter out, and to have full light turned upon the accusations against their client.

This will take some time, and the end of the month will be reached before judgment can be given. Meanwhile the strain is telling on Dreyfus, who is showing physical distress.

## HARD TO KILL

George Peterson's Desperate Attempt at Suicide.

Chicago, Aug. 11.—In an effort to commit suicide yesterday George Peterson, a cook of Evanston, first drank a quart of whisky, then secured an old rusty sword, set the hilt against a bathtub and fell upon the point so forcibly that the blade went nearly half way through his body. Feeling little pain, and being still able to stand, Peterson again fell upon the sword.

His vitality was still strong, however, and he placed the weapon's point against his stomach and rushed with the hilt against the wall. Still he did not collapse, and, plucking the blade from his wound, he set fire to the house and crawled into the closet and waited for the fire to consume him. He was rescued, however, and taken to the hospital. He may recover.

## Mysterious Shooting.

Oliver Springs, Tenn., Aug. 11.—A mysterious attempt to murder here is causing excitement. Miss Belle Galbreath, daughter of James Galbreath, was walking near her home, when some one shot her in the right lung, the ball passing through her entire body, coming out at the right breast. A woman is supposed to have done the shooting. The wounded girl will in all probability die. Bloodhounds have been sent for and every means will be employed to trace the would-be murderer.

## Crop Condition.

Washington, Aug. 11.—The August report of the statistician of the department of agriculture shows the following averages of condition on Aug. 1. Corn, 89.9; spring wheat, 88.6; oats, 90.8; barley, 93.6; spring rye, 80.0; buckwheat, 95.2; potatoes, 93.0; timothy hay, 80.7.

## ON EDMONTON TRAIL

Heartrending Stories of Hardships Endured by the Gold Seekers.

## PROFUSELY ADVERTISED

Route Turns Out to Be a Veritable Death-Trap—Unfortunates Rescued by Relief Parties Brought to Wreckage in a Horrible Condition—Party of Chicagoans' Narrow Escape.

Wrangel, Alaska, Aug. 8 via Seattle, Aug. 11.—The Stikkeen river steamer Strathcona, has arrived here with 80 survivors of the Edmonton trail.

The unfortunates tell heartrending stories of hardships endured, comrades lost and abandoned, and strongly denounce the trading and transportation companies as well as the Canadian officials and newspapers that so profusely advertised this route as a feasible one to the Klondike gold fields. To outward appearances these men certainly give evidence of the awful suffering undergone since leaving Edmonton, 18 months ago. Most of them are sickly looking, with unkempt beards and greasy clothes—pictures of physical and financial wrecks. Several are gray and bear marks of scurvy.

A few have just enough money to reach Seattle or Victoria, but the majority are without funds. The citizens of Wrangel have applied to the United States government at Washington, but up to this date no aid has been received. There are about 25 destitute miners here. Many have had narrow escapes from starvation along the trail from Fort Simpson to Mud river and Fort Laird. A. H. Tiger and party lived on squirrels and bacon for nearly two weeks.

M. Ostig, C. Steifel and M. W. Watson, three of a party of five from Chicago, owe their lives to a bear that they killed just as they had run out of provisions, about 20 miles from Laird Post. William Schmidt and Fred Swift of the same party left the camp at Laird Post last spring to trap and have never been heard from since.

M. Randleman of Chicago was lost in the woods above Fort Laird last fall, and was compelled to live on bacon for three weeks.

It is admitted that there are still more than 100 men scattered along the trail between Laird Post and the Peily banks, and relief parties have been sent out by the Hudson Bay company. The last report brought to Laird Post was that many were dying of scurvy and hunger. It is estimated that there are 30 or 40 sufferers at Telegraph creek awaiting the next trip of the boat.

The sick that had to be carried on stretchers had not yet reached Glenora when the Strathcona sailed.

Several starvation cases are reported. About 20 miles above Devil's Portage two unknown men were frozen to death. A man bearing the name of Johnson from New York was found dead in a tent near the source of the Mud river. This poor fellow had no covering only half of a blanket, and in a diary, still open in his hand, were these words opposite the date, Feb. 15, 1897: "I died of hunger."

All along the route from Fort Simpson on the McKenzie river to Fort Laird men with frozen limbs were assisted, while some, too weak to help themselves, were necessarily left behind by those more fortunate and able to struggle along. Scurvy raged in all the camps more or less, but there are few deaths from this disease reported.

Provisions were scarce and high at all the military posts last winter, and at several, including Laird post and Fort Francis, even the post men were not on short rations during the months of April and May of this year. Flour sold at \$5 per sack, bacon at 75 cents per pound and beans at 25 cents per quart. This made up the daily menu for several weeks.

The majority of the returning gold seekers took the McKenzie water route from Edmonton. Coarse gold was found in several small streams and gold colors were often seen, though not in sufficient quantity to work.

## \$150,000 In Gold Dust.

Seattle, Wash., Aug. 11.—The steamer arrived from Alaska yesterday. In addition to 250 exourists she had 100 miners from Dawson and Atlin aboard. The amount of gold dust they carried is estimated at \$150,000.

## BRYAN IN ILLINOIS

Under Certain Conditions He Would Prefer Not Being President.

Pana, Ill., Aug. 11.—At Uthia Springs yesterday afternoon Colonel William J. Bryan delivered his lecture on "Pending problems" to an audience of fully 2,000 citizens of Shelby county. His remarks were principally in condemnation of imperialism and the gold standard. Colonel Bryan, in his talk, stated he would prefer not being president if any other man the people might select would enforce the principles and precepts of Lincoln more effectively than himself.

## Preacher Arrested For Counterfeiting

Waco, Tex., Aug. 11.—Solomon Dolson, W. Heider and W. Williams have been arrested in the Bosque mountains charged with counterfeiting. The first named is a preacher. The United States marshal says sensational developments will follow. Counterfeiting has been going on an extensive scale in those mountains.

## \$750 Each.

San Francisco, Aug. 11.—At the Orpheum theater yesterday an auction sale of seats on boxes took place for the benefit of the fund to be used in the re-erection of the returning California regiment. Five boxes sold for \$8,900.

## GLASS WORKERS

All Except the Chimney Scales Settled—Advances Granted. Pittsburgh, Aug. 11.—The wage scale committees of the American Flintglass Workers' union and the manufacturers, who have been in session for a week, have adjourned after settling all the scales except the chimney scale. Advances have been granted the workers in some of the branches, while others will be operated on last year's scale. It can be stated that the workers have obtained a general advance of 5 per cent. The manufacturers say they will start their plants on Aug. 15.

## CAPTURED A TRAIN

Tramps Loot a Freight on the Lake Shore Road and Escape.

Laporte, Ind., Aug. 11.—A gang of tramps captured a Lake Shore freight train, east of this city and carried off considerable booty. Two passengers were assaulted and thrown from the train. One of the men was seriously injured, and may die. The officers have made no arrests, the gang escaping after a long chase.

## GENERAL MERRITT

Rumor That He Is to Succeed Otis Without Foundation.

New York, Aug. 11.—Since the visit of General Wesley Merritt to Secretary Root in this city rumors have been current that it has been settled that General Merritt will succeed General Otis in the Philippines. When General Merritt was seen in his home on Governor's Island, he said:

"Any story that I may succeed General Otis in the Philippines is without foundation. If I am ordered to Manila I will obey orders the same as any army officer would do."

## SHE RAISED THEM.

## A Georgia Widow's Recipe For Bringing Up Her Sons.

During a visit to the army camp in Savannah General Joseph Wheeler was entertained by a party of northern men at the De Soto. When, in the good humor of after dinner cigars, one of the men said laughingly:

"How is it, general, that the sleepy farms of the south produce such whirlwind fighters in such small packages?"

"Well, gentlemen," said the little general, puffing at a large man's cigar, "I believe I'll have to give you the answer an old 'cracker' woman once gave me when I asked her a similar question. Not many years ago I had occasion to make a saddle journey through the pine barrens of Georgia, where most everybody is a 'cracker' and mighty shiftless. One day, however, I rode into a little community that showed signs of thrift as to be quite out of keeping with the general character of the barrens. I do assure you, gentlemen, I rode up to a cabin where a gaunt old woman stood in the doorway, and asked her who owned these little farms that were so well kept."

"That farm on the left belongs to my son Jabez," said she, "and the next one to my boy Zed, and the next to my boy Jason, and the next is my boy Potiphar's place, and—"

"Hold on, sister, said I. 'How did you manage to raise such a fine lot of boys way off here in the woods?'"

"Waal, stranger," she answered, "I am a widdy woman, and all I had to raise 'em on was prayer and hickory, but I raised 'em powerful frequent."—Philadelphia Post.

## Eugene Field's Arithmetic.

The first book which Eugene Field had printed was "The Tribune Primer," published in Denver in 1882. It was composed of short lessons in different lines of study. As there are said to be not more than seven or eight copies of the book now in existence readers may be glad to see two specimen paragraphs from the lesson in "mental arithmetic."

"If you have Five Cucumbers and eat Three, what will you have left? Two. No; you are wrong. You will have more than that. You will have Colic enough to double you up in a Bow Knot for Six Hours. You may go to the foot of the Class."

"If a Horse weighing 1,000 pounds can haul four tons of Pig Iron, how many seasons will a Front Gate painted Blue carry a young Woman on One Side and a young Man on the Other?"

## Teachers' Institute.

The teachers' institute now in session at this place is progressing nicely. The institute opened Monday morning with good attendance which has continued and been on the increase every day since. The enrollment the first evening was 142, teachers instructors and other interested individuals. It now numbers 197. The daily roll attendance thus far has been—Monday, 142; Tuesday, 160; Wednesday, 172 besides a number of visitors.

The instructors—E. B. Bryan, of the State University, C. M. Curry, of the State Normal, G. W. Dunlavy, of the Southern Indiana Normal College, and J. M. Black, of Washington, respectively on pedagogy, literature, history and music, have each handled the branches of work coming under their special lines in a manner used only by high-minded, first-class instructors. Surely no one, be his occupation what it may, can listen to their lectures without having his mind elevated to higher thoughts and better defined ideas.

Beside the regular instructors other distinguished visitors from various colleges and institutions have delivered some excellent talks on leading school topics of the day. In this list of well-known callers we find the names of Hon. F. L. Jones, superintendent of Public Instruction, Prof. Yoder, of Vincennes University, ex-State Supt. D. M. Geeting, now editor of Indiana School Journal, Prof. Cochran, of Columbus, and Prof. B. A. Jenkins, of Indianapolis.

Good order and close attention have prevailed. The large crowd has been well accommodated by the people of Brownstown which has helped materially in making the institute the success it is.

## COUNCIL PROCEEDINGS.

## Tax Ferrets Employed to Look After the Dodgers—Other Business Transacted.

Regular session of the city council last night. Bartlett absent. S. A. Barnes acted as city attorney in the absence of John M. Lewis.

Price of the water works committee handed in a report relative to the extension of the water mains to the Band-Saw mill. Committee recommended that the extension be not made as the city could not legally order extensions beyond the corporation line. Report accepted.

Binder, of committee on accounts and claims, reported that after examination of the claim of the Cordes Hards ware Co. for 65 cents found same correct; and recommended payment. Adopted.

Price of the auditing committee, reported that the claims filed at least five days prior to council meeting had been examined, and committee recommended the reading and payment of those approved.

The city treasurer made the following report:

Engineer Sigel reported that Barney Fossnaugh had completed the dressing and graveling of Fifth street from Pine street to Central avenue. Lineal feet, 1,116; cost, \$111.60. The amount assessed against abutting property was set out in detail by engineer.

Engineer also reported that Barney Fossnaugh had completed dressing and graveling Fourth street from Pine to Central avenue according to specifications. Total cost of improvement, \$127.10; front feet assessed, 1,171. The amount assessed against abutting property was set out in detail by engineer.

Bo's reports were referred to special committee.

The only bid for the improvement of both sides of Carter street from Laurel street south to alley by paving with cement was that of E. G. Weathers. He proposes to do the work for 15 cents a square foot. Motion to award contract to Weathers was carried.

The only bid for grading and graveling the alley through block W from St. Louis avenue to Second street was filed by Barney Fossnaugh. He proposed to do the grading for 17 1/2 cents a cubic yard and to gravel same at 50 cents a square yard. Being the only bidder the contract was awarded to Mr. Fossnaugh.

The street commissioner made a detailed report of the work he had done from July 22 to August 4. Report showed the amount of work done in each ward and cost of same. Report received and filed.

Barley Fossnaugh's bill for grading and graveling street intersections was referred to special committee having charge of that work.

On motion of Price the bids for putting up street signs were opened. H. A. Page proposed to put up aluminum signs at 35 cents each. He estimates the number of signs at 435.

John E. Bartlett proposed to put up signs according to sample submitted for 33 cents to 37 cents each, according to size.

Leroy E. Miller proposed to put up all the signs according to sample for \$133.44.

On motion the propositions were laid on the table for the time being.

Miller introduced an ordinance to enter into a contract with John H. O'Neal and W. G. Reynolds to examine the records and place on the tax duplicate all omitted taxes that they can find. they to get 40 per cent of all such taxes

collected and paid into the city treasury. The ordinance was advanced, read second time and discussed. Then on motion it was advanced to third reading, read by title and adopted. The city attorney was directed to prepare a contract in accordance with the ordinance.

Resolution by Shepard to put an arc light at the intersection of Fourth and Walnut street. Adopted.

On motion of DeGolyer the Travis Carter Co. was instructed to repair dangerous flaws on property on South Vine street.

Motion prevailed ordering the P. C. C. & St. L. railway to maintain flagmen on Brown and Laurel streets seven days in the week.

Gibson stated that the Third ward had but one crossing over the B. & O. S-W. tracks and that was on O'Brien street, and that was dangerous as the flagman was employed there. The clerk was instructed to write the company's officials to establish a watchman there.

On motion of Huber the street commissioner was instructed to raise foot crossings wherever too low.

Price presented a petition from some property owners of Second ward for a branch sewer to be built under the supervision of the city at the expense of abutting property owners. The city attorney directed to draw ordinance for same by next council meeting when the question will come up for further consideration.

The city attorney was directed to draft an ordinance for grading and graveling Indianapolis avenue on east side of railroad track north from Second street.

Engineer Sigel was granted a ten days leave of absence. E. W. Blush has been employed to act for him during that time.

Council adjourned at 10:30.

## Brave Men Fell.

Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says:

"Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at W. F. Peter's drugstore. Every bottle guaranteed.

## CLOCKS OF BYGONE DAYS.

Curiosities in the Museum of a Clock Making Village.

In the town of Schramberg in the Black Forest district of Wurttemberg, Germany, where one of the chief industries is clock making, there has recently been established an interesting museum of timepieces. The collection displays the gradual development in the making of clocks for many centuries.

Among the curiosities are many of great historical value. There is an alarm clock constructed in the year 1680 for the use of travelers. In form it resembles a lantern and the interior is designed to hold a lighted candle. The candle is slowly pushed forward by a spring, which also controls the mechanism of the clock. A little pair of shears clip the wick of the candle automatically every minute to regulate its light. The lantern is inclosed with movable slides, so that the sleeper is not at first disturbed by the presence of light.

The alarm is set by inserting a peg in the second dial plate. When the required hour arrives, the alarm is sounded and at the same time the movable slides fall, flooding the room with light.

Among the curiosities is a Japanese saw clock. The clock itself produces the motive power by descending a saw formed strip of metal, the teeth of which operate the wheel of the clock-work. In another Japanese clock the hand is attached to a weight, which sinks once in 24 hours. The time is indicated by a hand on the perpendicular scale.—Chicago Times-Herald.

## THE HEADSMAN.

He Used the Sword and Not the Ax Prior to 1483.

I am inclined to think that prior to 1483 the sword and not the ax was usually employed as the weapon for judicial decapitation, and that a block was dispensed with, the victims receiving their doom "meekly kneeling upon their knees," and in this opinion I am fortified by the concurrence of an eminent clerical historian. This learned writer agreed with me that the ax did not become the "regulation" lethal implement until after the rough and ready "heading" of Lord Hastings on the Tower green, when he was summarily dispatched by order of the protector, Gloucester.

In this instance, according to the chroniclers, the victim's neck was stretched upon a piece of timber then in use for the repair of the adjacent church of St. Peter ad Vincula, probably a "putlog," part of the scaffolding which, we read, "conveniently lay in the way." Contemporary accounts seem to indicate that the executioner straddled over the prone body, and from this position I infer that the decapitation was effected by the tool known as an adz, the cutting edge of which is at a right angle to and not in a plane with the shaft.

I may add that the only contemporary reference I have come across of the use, or proposed use, of an ax and block for inflicting capital punishment prior to this tragedy, is in one of the Paston series of letters describing the peril of an unfortunate captive of Jack Cade's rebels (A. D. 1450), a generation before Lord Hastings was so clumsily backed to death.—Notes and Queries.

## American Speech.

The faults of American speech, according to an authority on the subject, originate in the primary school. The child is not taught the meek value of his phrase. He is allowed to use the throat instead of the tongue, and the flow of speech becomes, therefore, halting and guttural.

"Educate your alphabet and you will find your language as mellow as any of the family of Latium," is the advice given. "Your I's are throaty, your M's are too labial, your S's are too hissing, your C's are not soft enough. When you can train your scholars to emit these and the other consonants within the pitch, using the tongue instead of the throat for their emission, then you will see that for rhythm and sonority your English language may be compared with the Tuscan, the Roman, the Spanish and the Provencal."

## The Cocaine Habit.

A well known chemist states that a surprising number of well to do young ladies have taken to buying the various forms of doctored up coca extracts (cocaine) in large quantities, also phenacetine and various bromides, because "they make one feel so nice and happy." It is needless to say that such practices are exceedingly risky. Perhaps, however, they are preferable to another extremely foolish trick—that of sniffing chloroform dropped on a handkerchief, with the object of producing a pleasant, dreamy languor.—New York Telegram.

## Balloons in a Storm.

Mr. Carl E. Myers, the aeronaut, in discussing the question of aerial navigation, points out one great advantage of the balloon over the aeroplane. The latter cannot stop or hover in the air and if caught in a storm may become helpless.

The balloon, on the other hand, while it cannot go against the wind, is safe, even in a tempest, provided no effort is made to drive it in opposition to the air currents. Even in a high wind the balloon seems to the aeronaut to be becalmed.

## FOUGHT WITH ROPES

THE LASO AS A DEADLY WEAPON IN A COWBOY DUEL.

How Two Desperadoes Who Were Skilled in Horsemanship and Adept in Flinging the Lariat Shuffled Off This Mortal Coil.

"I once witnessed a duel with lasso ropes between a Mexican and an American," said Joe Hampton. "It happened about 20 years ago, and it was about as exciting a piece of work as I ever saw. I was foreman at that time for the Seven Up (7 U P) horse ranch in Wyoming, and we were on our way from Sydney, Neb., with a band of mares that had been shipped from the Missouri to Sydney. We had to drive the animals overland to the home ranch."

"Well, I picked up an outfit of men around Sydney, seven Americans and three Mexicans, a tough lot. We started out, and when we got to the Big Choyenne river, south of the Black Hills, we stopped to let the horses rest for a few days. There was one Mexican, Pedro Gonzales, about the most ill natured and most quarrelsome man I ever saw. He fell out with an American by the name of Dick McCall, an all around bad man. I know Dick by reputation, and he had a bad record."

"Well, one day at dinner time Dick made some remarks about roping a Greaser down in Texas and hauling him across the prairie until he was worn out. The Mexican answered by saying that men must have been asleep or dead, for you could not rope a live man and do that. Dick jumped to his feet and pulled his gun, and Pedro did the same. I rushed between them and ordered them to put up their guns. The Mexican's black eyes shone like a rattlesnake's when about to strike, but he put the gun back in his belt, and Dick did the same."

"I knew there would be trouble, and how to avoid it was a question not easily solved. I ordered the horse wrangler to fetch up the saddle horses, for I intended to move on that afternoon. The Mexican spoke to Dick, and they walked off to one side and talked in a low tone for a few minutes. When the horses came up, I noticed both men saddled up their best horses."

"They both unwound their lasso ropes and stretched them out side by side. Dick's rope was about 45 feet long and Pedro's about 60 feet. Pedro drew his knife from his belt and cut his rope the exact length of Dick's. Then they coiled up their ropes carefully, and each man led his horse in opposite directions until they were about 100 yards apart. Then they mounted like a flash and rode toward each other."

"I stood holding my horse by the bridle and watched every move. I will never forget the look of hate and murder on the Mexican's face. His lips were apart, showing his white teeth, and a wicked smile seemed to play about his mouth. Dick's jaws were set tight, and a look of mingled fear and rage combined on his savage face."

"They rode slowly toward each other for about 50 yards, watching each other like a couple of caged panthers. Then they made a dash, and both ropes shot out like a streak of lightning. Both men dodged and escaped. In an instant they had gathered up their ropes and begun to circle around and around."

"I could hear the swish of their ropes as they swung them around their heads, each man trying to get some advantage. They charged back and forth, and finally both threw their ropes again. It was a close call for Dick, for the Mexican got his rope over Dick's head, but Dick threw it off before he could pull up the slack."

"In an instant Pedro had gathered up his rope and threw it again and caught Dick around the head and one arm. He drove the spurs into his horse and started across the prairie, but like a flash Dick's hand went to his pistol, and before the Mexican could pull him from his horse Dick sent a bullet through his head, and the Mexican fell to the ground dead."

"But Dick was jerked from his horse with terrible force, for the Mexican had made the end of his rope fast to the saddle horn. The Mexican's horse ran a short distance and then stopped, and before I could get to him one of the other Mexicans had ridden up and emptied his six shooter into Dick's body. He then put spurs to his horse and soon disappeared across the prairie, and that was the last I ever saw of him."

"The other Mexican told me that was the third duel of that kind that Pedro had fought and always got his man."—Seattle Post-Intelligencer.

## No Birthplace.

A remark made by a 6-year-old boy on a certain occasion was the natural result of confusion in his small mind, but it caused amusement to the bystanders.

The house in which he had first seen the light of day had been torn down to make room for a wider street, and the little boy, holding fast to his father's hand, viewed the ruins with grief and amazement.

"Why, papa?" he cried sorrowfully. "Why, papa? I wasn't born anywhere now, was I?"—Youths' Companion.

Scared Too High.

"Yes, that's Guggensthorp. He made a fortune once by inventing a road scraper."

"What did he do with his money?"

"He sunk it in a skyscraper."—Chicago Tribune.

## RETURN LIMIT EXTENDED.

Seashore Excursion Tickets via Pennsylvania Lines Good Fifteen Days Returning.

The return limit on the low fare excursion tickets to Atlantic City, Cape May, Angle sea, Avalon, Holly Beach, Ocean City, Sea Isle City, Wildwood, New Jersey, Rehoboth, Del., and Ocean City, Md., to be sold August 10th, from principal stations on the Pennsylvania Lines will be fifteen days including days of purchase. This is a longer limit than that granted on similar tickets sold in previous seasons, and will be ample for a delightful sojourn at the seaside. The extreme return limit will be August 24th, which will allow a week after returning home to prepare for school and other duties which begin with the opening of September.

The date of the excursion, August 10th, is the most convenient for an outing. Business is quiet at this season, crops are gathered, and office, store and farm duties are not exacting. The thermometer usually reaches the highest point about this time. It will be a pleasing diversion to spend week's vacation in the invigorating ocean breeze and experience the unlimited pleasure at the command of the summer idler by the sea.

The round trip rate from Seymour will be \$15. Tickets this exceptional low rate far may be secured at either of the ten resorts mentioned above, which are the most attractive along the Atlantic coast. For illustrated descriptive matter about them apply to O. B. Sappington, local ticket agent of the Pennsylvania Lines, who will also furnish information about time of trains, etc.

## GOT 'EM GUESSING.

### An Insurance Solicitor is Keeping A Livery Horse An Unusual Length of Time.

Harry M. Stilwell who has been soliciting insurance for the John Hancock Life Insurance Company in this locality the past few weeks has Messrs. Allen Crane and L. C. Wallick guessing as to his whereabouts. Last Saturday morning he hired a horse and buggy of Mr. Crane to drive to the country. When he left he was to get back Saturday evening. But on the same date he wrote a letter, heading it Freetown but mailing it at Surprise, to Mr. Crane that he might be detained there until Monday to complete some business, but would take good care of the horse. He wrote a similar letter to Mr. Wallick. Since then it has been learned that he ate a late dinner at Kurtz that same day, but where he went from there is not known here. He may be working insurance through the country and found so much business needing immediate attention that he had no time to write any more letters and inform his creditors that he has extended the time fixed for his return.

The rig he took away is one of the best in the stable and Mr. Crane says he has hopes that it will yet be returned all right. Stilwell's livery bill is over \$20. His bill at the New Lynn is about \$27.50. Tracers have been sent out in all directions with the hope of finding Stilwell. It may be that he is just lost in the woods.

## SURPRISE BURGLARS

### Now in Jail Awaiting the Next Term of Court.

Thursday night about 11 o'clock P. M., Lett discovered Walter Lewis and Ernest Freeman forcing an entrance into his store at Surprise. When they were on the inside Mr. Lett fired a shot or two and the young fellows ran out. Both were recognized. Yesterday warrants were issued for their arrest. Lewis was arrested in the vicinity of Freetown and Freeman was arrested here. They were arraigned before Judge Hoover today and on a plea of guilty were sent to jail to await the next term of circuit court. They were taken to jail at Brownstown this afternoon by Marshall Thicksten.

## Appreciate Courtesies.

D. Brunswick and Ben C. Thomas returned from Seymour where they succeeded in getting the endorsement of the list of charter members for the lodge of Elks about to be started in our city. ## Literary Note.

Ex-Senator John J. Ingalls has written for The Saturday Evening Post, of Philadelphia, two valuable papers upon the later career of President Garfield. These articles, written by a man who knew Mr. Garfield in his youth, and afterward saw at close range his public acts, constitute what is perhaps the most dispassionate and judicial estimate of the man ever made. Mr. Ingalls' brilliant prose, enlivened by anecdote and strengthened by first-hand knowledge, is well worthy of his subject. In connection with these papers, facsimiles of unpublished letters from Mr. Garfield's physician will be printed. The first of these papers will appear in Post of August 26.

In the same issue will be found contributions by Ian McClaren, Harriet Riddle Davis, Julian Ralph and Charles Battle Loomis.

## That First Baby.

They are in a state of great excitement in "Tailholt." This you find but very flourishing town located in Jackson county, state of Indiana, U. S. A.—which is Uncle Sam's America, including all our "new possessions"—has had its first baby!

The shops were closed, the field hands had a day's holiday, and melons, turnips, carrots, beets and creamery butter lay idle in the market wagons. The solitary prisoner in the log jail was allowed to roam about in his cell, without his meals and the cry of "mad dog" passed by unheeded.

In the language of the "oldest inhabitant" it was "a bright day for Tailholt, and gave it a place among the Brotherhood of Nations." True, the baby, when born, weighed only one pound and a quarter; but when it was two weeks old, it had gained two pounds! At this rate it will weigh fifty pounds at the end of its first year, and at that rate, by the time it is ten years old, it will pull down the scales at five hundred and twenty pounds! So, it will readily be seen that, although Tailholt has begun modestly, it has commenced well, and surely the greatest hopes may be entertained regarding its future progress, prosperity and population.

**BULLET IN HER BRAIN**

Mrs. Clara Baldwin Attempts to Poison Her Family and Shoots Herself.

**TRAMPS CAPTURE A TRAIN**

Lake Shore Freight Looted and the Thieves Escape—More Union Miners Arrested at Evansville—Congressman Dolliver to Answer Colonel Bryan's Winona Speech.

Indianapolis, Aug. 11.—Mrs. Clara Baldwin of Irvington last night after an attempt to poison her husband and two children, ended her own life with a revolver. She placed strychnine in the food furnished for supper and all partook of it. They soon became ill and a physician was summoned.

Dr. Terrell, who answered the summons, found the husband and daughter on the porch in almost collapsed condition. He called for Mrs. Baldwin, but received no response. Soon after two shots were heard upstairs, and on investigation the woman was found dead. The tragedy is attributed to melancholia. Mrs. Baldwin having at one time been an inmate of the Central Insane hospital, but had been discharged as cured. The father and two children were given emetics and it is thought all will recover, although the son is in a serious condition.

**NITROGLYCERIN**

Three Cans Accidentally Exploded in a Well—No One Injured.

Montpelier, Ind., Aug. 11.—Three cans, each containing 20 quarts of nitroglycerin, were lowered in an oil well by the Enterprise Transit company. Two went to the bottom safely, but the rope attached to the third broke and the can dropped. Contact with the casing exploded it at the depth of 120 feet, ruining the casing and blowing the derrick to pieces. The nitroglycerin wagon, heavily laden, was standing within a few feet of the derrick, and had it been struck by the fragments, nobody in the neighborhood would have lived to tell the tale. There were 15 persons witnessing the shooting, and they fled for their lives.

**DIED SUDDENLY**

Rev. Dr. Thomson Expires While Sitting in a Chair.

Cravensville, Ind., Aug. 11.—Rev. Everett B. Thomson, D.D., 55 years old, died very suddenly yesterday. He had been in failing health for several years, but he was able to leave his room. He died while seated in a chair, and was conscious to the last. He was the son of Alexander Thomson, for many years treasurer of Wabash college. Dr. Thomson was an alumnus of Wabash, and during his ministry in the Presbyterian church he held charges at Peru, Ind., Piqua, O., and this city.

**DECLINED THE OFFER**

Indiana Girl Refuses the Proposition to Pose as a Freak.

Hagerstown, Ind., Aug. 11.—Miss Lucy Havens, an Indiana girl, declined a great deal of attention lately because of her refusal of an offer of \$85 per week from a circus manager to travel with them as the fat girl. Miss Havens is but 15 years old, and weighs 500 pounds. She lives with her parents on a farm and assists in all the work, being especially expert in milking. She is active in movement and quiet good looking. Her parents are well-to-do and amply able to take care of her.

**Found Apples on a Grapevine.**

Peru, Ind., Aug. 11.—Joseph Worl of this city, trimmer of trees and vines, found what he claims are apples on a grapevine. The vine is under an apple tree, and he believes that the pollen of the apple blossoms mixed with that of the grape blossoms and produced the apples. They are a half inch in diameter. Mr. Worl sent them to the agricultural experiment station of Purdue University, Lafayette.

**Baby Attacked by a Rat.**

Mifflin, Ind., Aug. 11.—The 9-month-old baby girl of Mrs. Ellen Bayne of this place, during the temporary absence of the mother, was attacked by a huge rat, and its lower limbs were severely bitten. The child was exhausted when the mother re-entered the house. The rat was killed by a dog which chanced to accompany Mrs. Bayne.

**More Union Miners Arrested.**

Evansville, Ind., Aug. 11.—George Spradley and William Rueger, union coal miners, were arrested yesterday, charged with assault and battery with intent to kill. They are indicted for alleged participation in the ambush of nonunion negro miners one night last May. This makes five arrests, all told, with others to follow.

**Pensions Granted.**

Washington, Aug. 11.—Pensions have been granted to Indians as follows: Original—William C. Buford, Muskogee, Okla. Additional—Edwin Stoppard, National Military Home, Grant, Okla. to \$3; Thomas P. **YOU KNOW IT IS TRUE.**

THAT IS IF IT IS TOLD YOU BY A NEIGHBOR.

These Statements are by Persons Whom You are Willing to Believe.

If a person you respect tells you something, you believe him. You may not know the person whose statement we publish in this article, but you can easily know him because we give you his name and address and he lives right here in Indiana. That is the way we do, we give you the names of people living in this state who have used Morrow's Kidney-aids for backache, and kidney troubles, because we want you to consult these people about the good Kidney-aids have done them.

Samuel Wright, who is employed at the Central Iron and Steel Co., at Brazil, Ind., works every day at the most trying employment a man's physical condition is able to stand, in fact but few men could endure the performance of such work without breaking down completely, for he works before a furnace of molten metal and the heat is something intense, almost beyond the real conception of the ordinary mind. Huge streams of perspiration trickle down their body all the time the skin they work, causing the pores of the skin to be open to cold and draughts and through this way they often take cold that settles in their kidneys. Two years ago the cold settled in Mr. Wright's kidneys causing kidney disorder, and he endured all the suffering and annoyance which arises from this condition until he heard of Morrow's Kidney-aids and today he recommends them to all his friends as being an unsailing remedy for kidney disorder, is every trace of the old trouble has left him.

Kidney aids are for sale at fifty cents a box at A. Cox's drug store.

Mailed on receipt of price. Manufactured by John Morrow & Co., Chemists, Springfield, Ohio.

**The First Anniversary.**

It is just a year since the Chicago, Milwaukee & St. Paul road inaugurated its celebrated Pioneer Limited passenger train service between Chicago, Milwaukee, St. Paul and Minneapolis. This service marked the new era in the railroad world in the line of passenger accommodations. At a cost of a quarter of a million dollars that progressive company furnished the traveling public, in its Pioneer Limited train, comforts and facilities the best ever produced. This train has been described many times in newspapers and magazines, but should be seen and examined to be appreciated. In beauty of finish, richness and elegance of furnishing nothing equal to it has ever been attempted by any other road. The car builders were nearly a year in completing the Pioneer Limited trains (there are two—one leaving Chicago for the west and the other leaving the Twin Cities for the east every evening in the year) and they stand today a monument to the builder's art. No regular passenger train service in America is as well known as the Pioneer Limited. From the standpoint of passenger traffic the most successful in the history of the St. Paul road, made so very largely by the Pioneer Limited. The patronage of this service is a striking illustration of the fact that the public appreciates a good thing.
